

“A Simple Equation from KDI to You— For Peace of Mind About Your Business:”

KDI's QNAP Solution Automatically Backs Up Your Vital Data Every Night, Making It Easy For You To Restore Your Business After Disaster Strikes.

Got accounting records, customer files, product data, BOMs, research projects and other important data on your server? What if there's a fire? A flood? An earthquake? AND THE DATA IS GONE FOREVER?

Don't be one of those people who gets home insurance only after the robbery or the fire. Secure, automated offsite backup of your valuable data is available now. Imagine the peace of mind you'll have when you know your data is safely protected—and that after a disaster, all you have to do is easily retrieve your priceless files from our safe, offsite storage and put them onto new PCs. The tiny investment made now pays itself back thousands of times over in that one emergency.

KDI has developed an automated, reliable NAS drive technology to conveniently accomplish this for you. Call us at 1.800.661.1755 today to find out more about how KDI can give you peace of mind by automatically protecting and backing up your data!
